- Geographic Information Systems (GIS)
- LPIC 1 Linux Training
- Prince2 Foundation

2021 – Oracle Cloud Infrastructure Foundations

Skills And Competence:

i.   Solid understanding of database environments both relational and non-relational i.e. Microsoft SQL Server, PostgreSQL, MongoDB, and MYSQL.

ii.   Practical experience and proficiency in a range of development languages and frameworks like React, Django, Flutter, React Native, Java, C#, PHP, JavaScript, Python, SASS, Express, and NodeJS.

iii.   Experience using collaborative tools such as GIT.

iv.   Data structures and algorithms

v.   Machine learning algorithms and predictive analysis

vi.   Knowledge of Amazon Web Services(AWS)

vii.   Oracle Cloud Infrastructure (OCI).

Awards/Recognitions

- **2022 May**   -   AWS Cloud Practitioner Essentials - Amazon Web Services
  -    Project Management – LinkedIn Learning
  -    Foundations of Project Management - Course Era
- **2022 April**   -   Git and GitHub Certification- Course Era
  -    AWS Services for Solutions Architect Associate -Udemy
- **2021 December** – Oracle Cloud Infrastructure Foundations - Oracle

    – Game Development certification- Maliyo Games

    – HTML & CSS Trainer Volunteer Appreciation Certificate- ReDI School
- **August** - Agile Project Management: Agile, Scrum, Kanban & XP - Udemy.
- **June** - JavaScript and ReactJS certification- ShapeAI
      - Python and Machine learning certification - ShapeAI.

Professional Experience

i).   **Almasi Bottlers Limited (Coca-Cola):**- Information Technology Attachment from May 2019 - August 2019

Duties and Responsibilities;

1.   Monitoring of events, system backups, and the rotation of storage media.

2.   Installing, upgrading, and supporting workstations and peripheral devices.

3.   Internet and intranet operations and software installation.
4.   Technical Support
